

Assignment 17 (due 2/8)

46 V, VI(a, b, g, h only), VII

48 III, V

In class, I wrote exercise set 47 instead of 48 by accident. This is the correct assignment.

(Note that the numbering on 46 may be off in your book. The fifth problem in the section (which asks "Simplify the following radicals") should be numbered V, not VI. Similarly, the next two problems should be labeled VI and VII instead of VII and VIII.)
